

Enterprise Architecture Management and Reference Models: **T01 Introduction to EAM**

Kerstin Andree

Technische Universität München

TUM School CIT

Information Systems

What we will do today

- Recap on EAM Background [15 minutes]
 - **Goal:** Resolve confusion from last lecture
 - Recap Quiz
- Insights from Homework Exercises [10 minutes]
- Tutorial Exercises: Old Exam Exercises [60 minutes]
 - **T01E01** – Saving the ocean
 - **T01E02** – Value-based Strategy

General Information

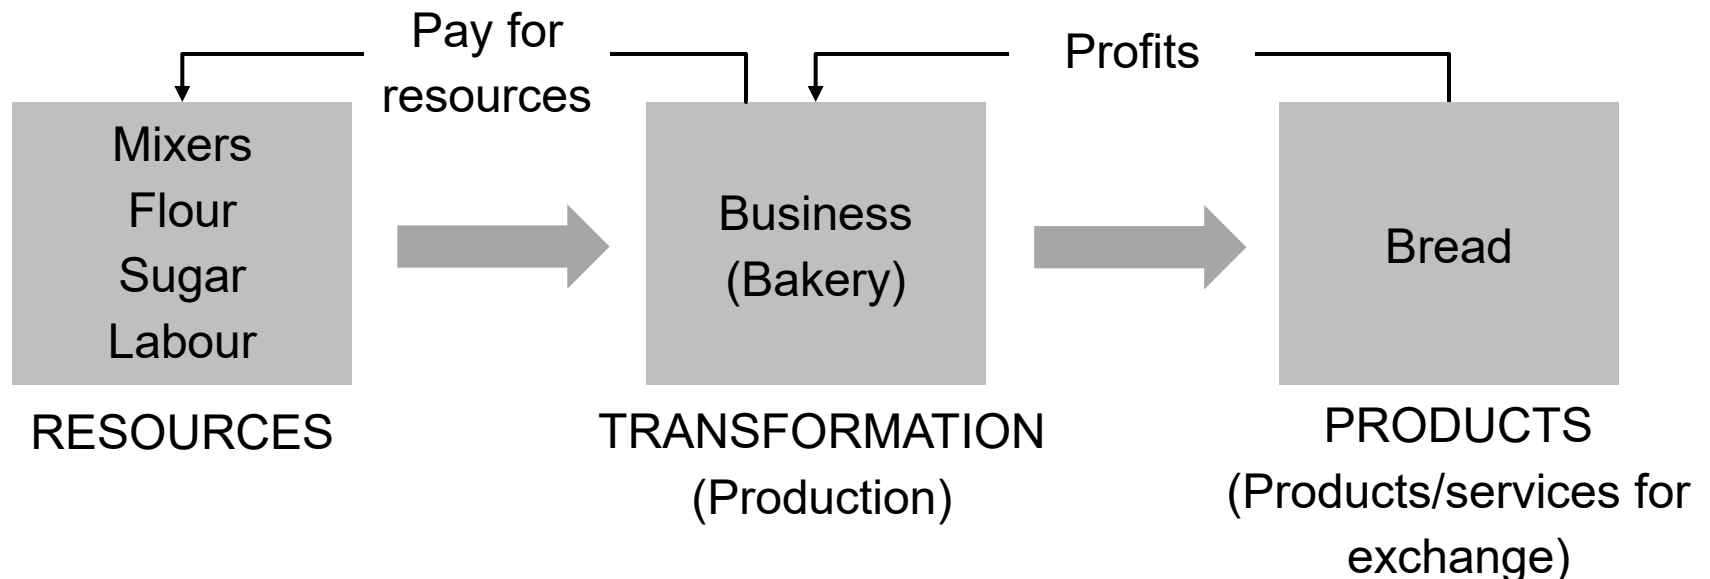

- Tutorial Slides are **not** shared via Moodle
 - Taking photos is **not** allowed
 - Old exam tasks and their solutions are not published on Moodle
- Only lecture slides are decisive
 - Tutorial slides are my personal notes ;)
 - We do not ensure the correctness of tutorial slides

Recap

L02: Introduction to EAM

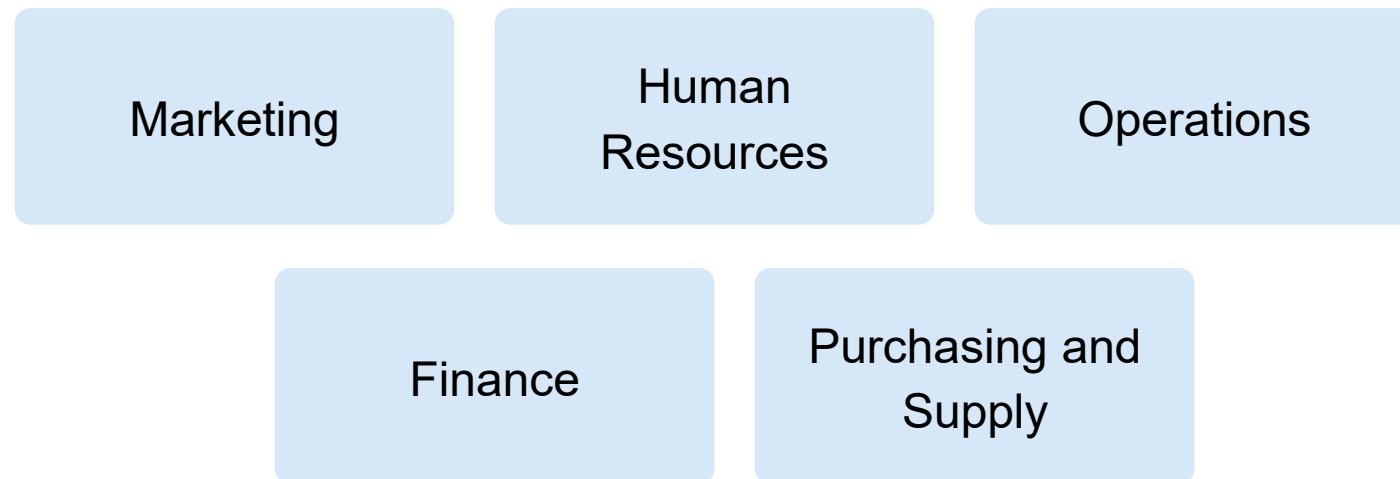

Know the terms and be able to explain them!

- What is a Business?
 - Organization that produces goods or services with the purpose of selling these on the market
 - Non-profit vs. for-profit businesses

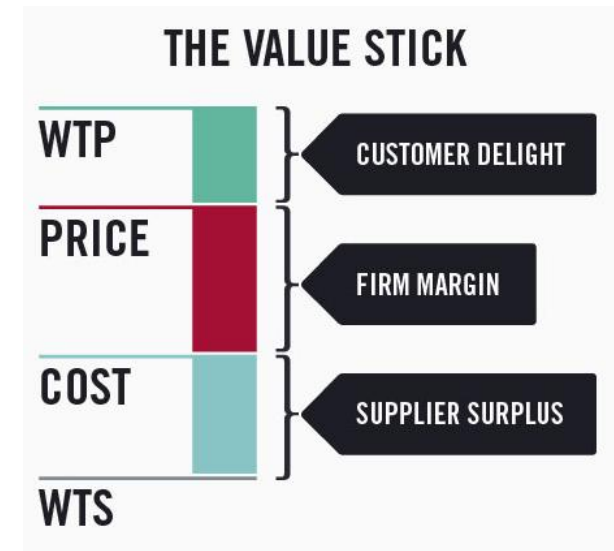

What is a Business Function?

- Various, daily activities performed by a company
 - One business function focuses on a specific area of activities (efficiency and performance)
 - All business functions together fulfill the overall business goal

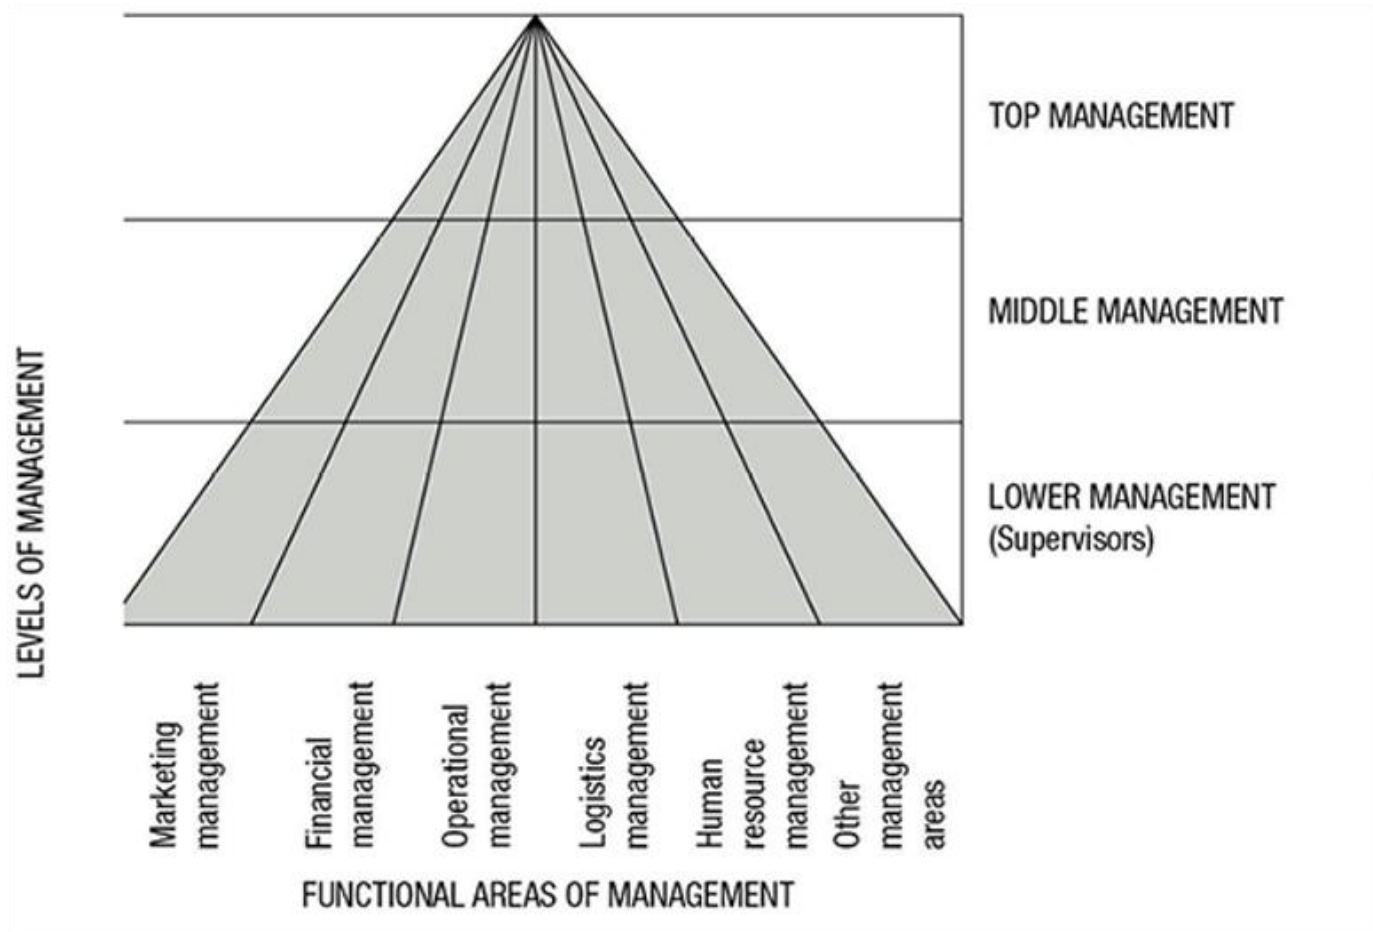

Business Strategy

- Business strategies define the big picture, the overall goal of the organization
- Based on business strategies, we can then derive more concrete plans and milestones
- Example: Value-Based Strategy
 - **Value** = overall value for customers, business, and suppliers
 - Increase value = increase WTP or decrease WTS

Levels of Management

Recap Quiz: Test your knowledge

- For each lecture, we publish an additional recap quiz on Moodle
- Practice the Multiple-Choice-Part of the Exam
- Identify blank spots

Recap Quiz RQ01

You find the quiz on Moodle

Homework Discussion

H01E01 – Business Functions

1. What is a business function and why are they essential for businesses?

a) Explain the term business function. (2 points)

*A business function refers to the **various (daily) activities performed by a company**. These activities (together) **fulfill the purpose of the business**.*

a) Explain why business functions are essential for an effective and efficient business using at maximum 3 sentences. (3 points)

*Well-structured **business functions** for activities. Due to this specialization, the **compared to being focused on every** Each business function has its own goal to strengthen the business, or ensure customer satisfaction. **business goal is achieved by having functions**.*

Check the points for a task to know what is expected and map it with the solution.

H01E01 – Business Functions

2. Consider the following scenario below and identify the business functions mentioned in the text. Assign responsible persons to each identified function. Outline the dependencies between the business functions by discussing examples from the text.

We often have such task types in the exam. Get ready to read and analyze text.
(see H01E03)

H01E02 – Business Strategy

1. Explain the difference between *Customers' Willingness to Pay (WTP)* and *Suppliers' Willingness to Sell (WTS)*
2. Discuss two examples of how to implement each of the following strategies:
 - Increasing WTP
 - Lowering WTS

Learn definitions to be able to provide precise and correct answers.

H01E02 – Business Strategy Solution

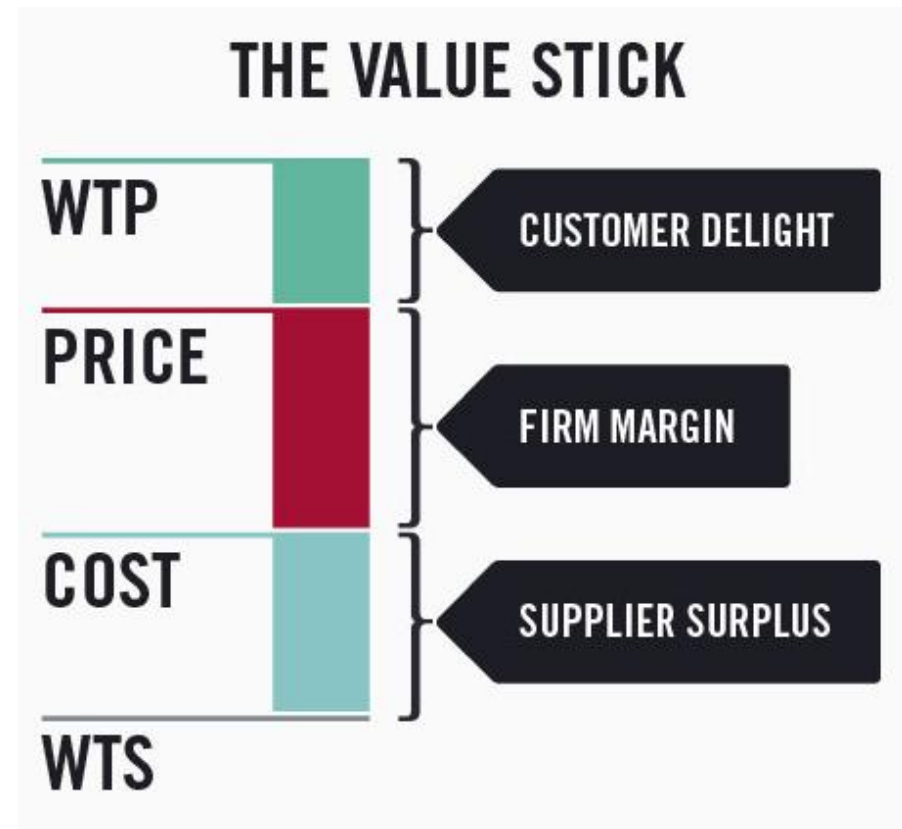

Part 1:

Customers' Willingness to Pay (WTP):

Maximum amount a customer is willing to pay for a product or service.

Suppliers' Willingness to Sell (WTS):

It is the lowest price your suppliers are willing to accept in exchange for the product or service they're providing.

H01E02 – Business Strategy Solution

Part 2:

Increase WTP:

- Add features or functionality to your product that your competitors don't include, increase your market influence.
- Redesign your product to be more aesthetically pleasing and distinct.
- Leverage luxury components that can establish the good as a status symbol.
- Improve the social status by advertising the product in media to give the product additional value.

Decrease WTS:

- Purchasing components or products in bulk: This enables a supplier to lower its price on a per - piece basis because it enjoys greater overall revenue from the increased volume.
- Think of your employees as suppliers: Would your employees be willing to work for less money in the form of salary and wages if you provided them with other forms of compensation.

For example, more vacation time, the ability to work remotely, or equity options.

Tutorial Exercises

T01E01 – Saving the ocean

- Exercise was included in the final exam of a previous semester
- You are given the problem statement and an answer
- Your tasks:
 1. Identify what is missing in the answer, i.e., grade it. How many points would you give? (max. 4 points)
 2. Provide an improved version. Write it on a paper.
 3. After 15 minutes, exchange your improved answer with your neighbor and discuss the differences.
 4. Discussion in the plenum.

T01E02 – Value-based Strategy

- Purpose: Understand the value stick and related strategies
- Your Tasks:
 1. We solve one task together.
 2. Form groups of 2-3 students. For each task:
 - Discuss within your group the strategic goal.
 - Discuss how the strategic goal can be implemented by creating an updated version of the value stick. What is changing?
 3. After 10 minutes, we will discuss your results in the plenum.

T01E02 – Value-based Strategy

Strategic Goal 1

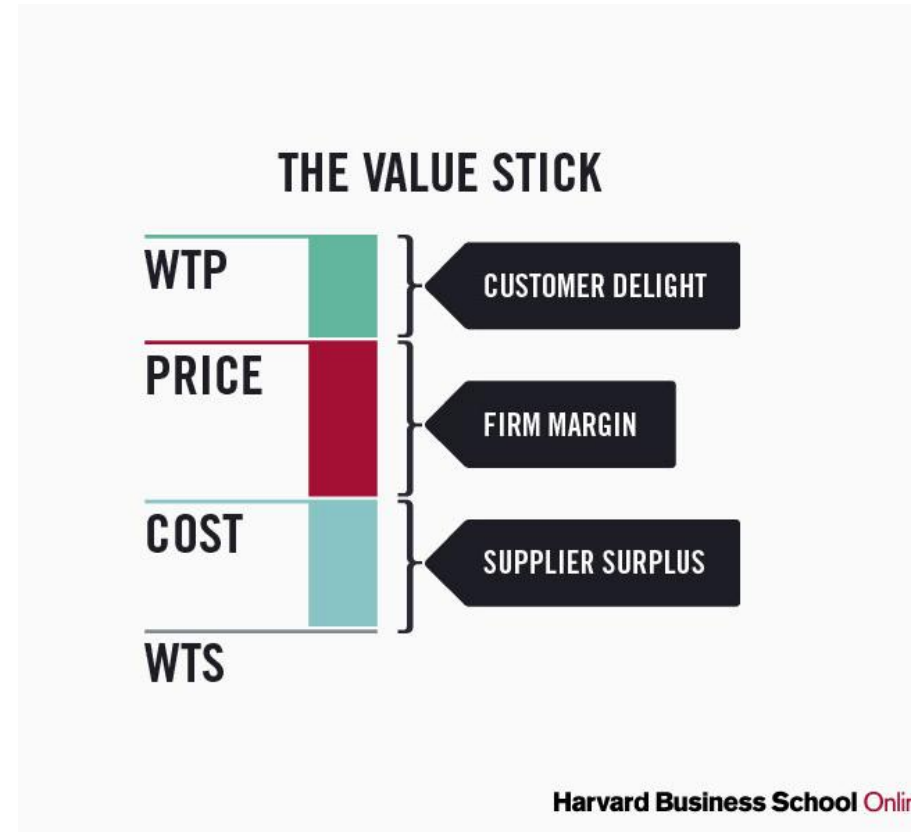

Increase the firm's margin

Strategic Goal 2

Increase the overall value of your business

Strategic Goal 3

Reduce cost without decreasing the supplier's surplus

Announcements

Skill Check takes place on 21.05.2026!

- Lecture L05 ArchiMate I will take place on Wednesday, 20.05.2026
- Skill Check will take place on Thursday, 21.05.2026
- Kick-off session for the study project will take place after the skill check
